Volume 48 1974

Table of Contents

Nucleic Acids and Protein Synthesis — Biochemical Genetics — Morphogenesis

25 Characterisation of RNA Synthesis *in vitro* in Neurone-Rich, Oligodendroglial and Liver Nuclei
F. Mizobe, T. Tashiro, and M. Kurokawa

157 5-S RNA: Biosynthesis and Association to Immature Ribosomal Particles in the Nucleus of Lymphocytic Mouse Leukemia Cells, L5178 Y
M.-A. Auger and P. Tiollais

199 Dinucleotide Sequences in the Regions of T7 DNA Coding for Termination of Early Transcription
G. G. Peters and R. S. Hayward

297 Error Frequency in 5-S RNA from Cells Grown in 5-Bromodeoxyuridine
P. Stambrook and R. Williamson

303 A High-Molecular-Weight Protein Component Required for Natural Messenger Translation in Ascites Tumor Cells
W. A. Strycharz, M. Ranki, and H.-H. M. Dahl

417 The Preparation and Preliminary Characterisation of Chromatin from the Slime Mould *Physarum polycephalum*
B. M. Jockusch and I. O. Walker

427 Caractérisation par marquage sélectif et électrophorèse des protéines polysomales non ribosomales de cellules Cl1D LM (TK-) maintenues en croissance exponentielle pendant 28 h, en présence d'actinomycine D. *(Characterization by Selective Labelling and Electrophoresis of Non-Ribosomal Polysomal Proteins from Cl1D LM (TK⁻) Cells Maintained in Exponential Growth for 28 h in the presence of Actinomycin D)*
L. Osborne-Rivet et J.-F. Houssais

485 Elongation Factor 1 from Ascites Tumor Cells: Interaction with Ribosomes and Elongation Factor 2
H. Grasmuk, R. D. Nolan, and J. Drews

495 Effect of Polyamines on Polyphenylalanine Synthesis by *Escherichia coli* and Rat-Liver Ribosomes
K. Igarashi, K. Sugawa, I. Izumi, C. Nagayama, and S. Hirose

513 Two Specific Ribonucleoprotein Fragments from the 50-S Sub-Particle of *Escherichia coli* Ribosomes
I. Newton and R. Brimacombe

527 Transcription in Lactobacillaceae. DNA-Dependent RNA Polymerase from *Lactobacillus curvatus*
K. O. Stetter and W. Zillig

617 Regulation of Carotene Biosynthesis in *Phycomyces* by Vitamin A and β-Ionone
A. P. Eslava, M. I. Alvarez, and E. Cerdá-Olmedo

Protein Chemistry — Enzymology — Physical Chemistry

53 Histones from the Fruit Fly *Ceratitis capitata*. Isolation and Characterization
L. Franco, F. Montero, J. M. Navlet, J. Perera, and M. C. Rojo

63 Separation of Isoenzymes by Partition in Aqueous Polymeric Two-Phase Systems
G. Blomquist, A. Hartman, V. Shanbhag, and G. Johansson

119 Preparation of Soluble and Insoluble Polysaccharide Conjugates of Peptides with a Free α-Amino Group. Interaction of Leucine Aminopeptidase with a Substrate and an Inhibitor Bound to Agarose and Soluble Dextran
R. Jost and A. Yaron

137 Heterogeneity of Erythrocyte Catalase II. Isolation and Characterization of Normal and Variant Erythrocyte Catalase and Their Subunits
H. Aebi, S. R. Wyss, B. Scherz, and F. Skvaril

147 The Role of Lysine and Leucine Binding on the Catalytical and Structural Properties of Aspartokinase III of *Escherichia coli* K 12
C. Richaud, J.-P. Mazat, B. Felenbok, and J.-C. Patte

167 Human Glutathione Reductase: Purification of the Crystalline Enzyme from Erythrocytes
D. J. Worthington and M. A. Rosemeyer

179 Structural Studies of Adenovirus Type-2 Hexon Protein
H. Jörnvall, U. Pettersson, and L. Philipson

217 The Preparation and Characterization of Two Forms of Bovine Galactosyl Transferase
J. T. Powell and K. Brew

229 The Mechanism of Inhibition of Pig-Plasma Benzylamine Oxidase by the Copper-Chelating Reagent Cuprizone
A. Lindström and G. Pettersson

237 Effect of Azide on Some Spectral and Kinetic Properties of Pig-Plasma Benzylamine Oxidase
A. Lindström, B. Olsson, and G. Pettersson

245 Chathepsin D: Rapid Isolation by Affinity Chromatography on Haemoglobin-Agarose Resin
R. Smith and V. Turk

255 Deoxyribosyl Transfer Catalysis with *trans-N*-Deoxyribosylase. Kinetic Studies of Purine-to-Purine *trans-N*-Deoxyribosylase
C. Danzin and R. Cardinaud

271 Intracellular Carboxy-Terminal Degradation of the αA Chain of α-Crystallin
W. W. de Jong, F. S. M. van Kleef, and H. Bloemendal

277 A Conductimetric Study of Erythrocyte Lysis by Lysolecithin and Linoleic Acid
A. J. Lawrence, G. R. Moores, and J. Steele

287 Synthesis of ATP from ADP and Inorganic Phosphate at the Myosin-Subfragment 1 Active Site
H. G. Mannherz, H. Schenck, and R. S. Goody

325 Adenylate Kinase of Porcine Heart
S. Kubo and L. H. Noda

333 A Comparative Study on the Basic Pancreatic Trypsin Inhibitor and Insulin by the Hydrogen-Exchange Method
A. Hvidt and E. J. Pedersen

339 A Study by the Hydrogen Exchange Method of the Complex Formed between the Basic Pancreatic Trypsin Inhibitor and Trypsin
L. Pershina and A. Hvidt

345 Purification and Characterization of a Ribonuclease Inhibitor of Chick-Embryo Cells
A. A. Kraus and C. Scholtissek

351 Réaction de libération plaquettaire induite par la phospholipase C. *(Phospholipase C-Induced Release Reaction in Platelets)*
H. Chap et L. Douste-Blazy

377 Regulatory Properties of the Pyruvate-Dehydrogenase Complex from *Escherichia coli*. Thiamine Pyrophosphate as an Effector
H. Bisswanger

389 Reaction Mechanism of D-Galactose Dehydrogenases from *Pseudomonas saccharophila* and *Pseudomonas fluorescens*. Formation and Rearrangement of Aldono-1,5-lactones
K.-H. Ueberschär, E.-O. Blachnitzky, and G. Kurz

439 The Covalently Bound Flavin of *Chromatium* Cytochrome c_{552}. 1. The Evidence for Cysteine Thiohemiacetal at the 8α Position
W. H. Walker, W. C. Kenney, D. E. Edmondson, and T. P. Singer

449 The Covalently Bound Flavin of *Chromatium* Cytochrome c_{552}. 2. Sequence of Flavin Peptides and Flavin-Tyrosine Interaction
W. C. Kenney, D. E. Edmondson, and T. P. Singer

455 Purification and Properties of 1-Phosphofructokinase from *Clostridium pasteurianum*
H. von Hugo and G. Gottschalk

465 The Amino-Acid Sequence and Carbohydrate Content of Phospholipase A_2 from Bee Venom
R. A. Shipolini, G. L. Callewaert, R. C. Cottrell, and C. A. Vernon

477 The Disulphide Bridges of Phospholipase A_2 from Bee Venom
R. A. Shipolini, S. Doonan, and C. A. Vernon

519 Synthesis and Properties of N^6, C-8 and C-2 Spin-Labelled Derivatives of Adenosine Cyclic 3′:5′-Monophosphate
J. Hoppe and K. G. Wagner

541 Structural Studies of a Polypeptide that Stimulates RNA Synthesis: A Component Obtained from Red Kidney Beans, the Source of Phytohemagglutinins
M. Harms-Ringdahl and H. Jörnvall

549 Metabolism of Aromatic Compounds by Fungi. 1. Purification and Physical Properties of 3-Carboxy-*cis*-*cis* muconate Cyclase from *Aspergillus niger*
D. R. Thatcher and R. B. Cain

557 Metabolism of Aromatic Compounds by Fungi. 2. Subunit Structure of the 3-Carboxy-*cis*-*cis*-muconate Cyclase of *Aspergillus niger*
D. R. Thatcher and R. B. Cain

563 Intracellular Degradation of α-Crystallin. Fractionation and Characterization of Degraded αA-Chains
F. S. M. van Kleef, M. J. C. M. Nijzink-Maas, and H. J. Hoenders

571 Studies on Ligand Binding during the Conversion of Phosphorylase *b* to Phosphorylase *a*
D. J. Brooks, S. J. W. Busby, and G. K. Radda

Cellular Biochemistry and Metabolism

1 Phosphorylation of Nuclear Proteins from Bovine Anterior Pituitary Gland Induced by Adenosine 3′:5′-Monophosphate
P. Jolicoeur and F. Labrie

21 The Reversible Reduction of Testosterone to Androst-4-ene-3α, 17β-diol by a Soluble Enzyme of Rat Liver
M. K. Sanyal, J. C. Orr, and L. L. Engel

35 The Flux of Intermediates and Products in Aromatization of C_{19} Steroids by Human Placental Microsomes
W. E. Braselton, Jr., L. L. Engel, and J. C. Orr

45 Depression of Reducing-Equivalent Translocation from Substrate to Oxygen in Hepatic Metabolism of Sorbitol or Glycerol in Hypothyroidism
H. V. Werner

71 Transfer of Deuterium from [1-$^2H_2$]Ethanol to Krebs Cycle and Related Acids of Rat Liver *in vivo*
T. Cronholm, H. Matern, S. Matern, and J. Sjövall

89 Glycosphingolipids and Glycoproteins in the Wild-Type and in a Non-Aggregating Mutant of *Dictyostelium discoideum*
O.-H. Wilhelms, O. Lüderitz, O. Westphal, and G. Gerisch

103 Interaction of Ganglioside $G_{Gtet}1$ and Its Derivatives with Choleragen
J. Staerk, H. J. Ronneberger, H. Wiegandt, and W. Ziegler

111 Compartmentation of the Tryptophan-Synthase-Proteolyzing System in *Saccharomyces cerevisiae*
A. Hasilik, H. Müller, and H. Holzer

131 A Study on the Biosynthesis of Protein A in *Staphylococcus aureus*
J. Movitz

209 Studies on Seed-Oil Triglycerides. Factors Controlling the Biosynthesis of Fatty Acids and Acyl Lipids in Subcellular Organelles of Maturing *Crambe abyssinica* Seeds
R. S. Appleby, M. I. Gurr, and B. W. Nichols

263 The Reversibility of the Isomerization of the Δ^8 to Δ^7 Bond in Cholesterol Biosynthesis
A. Scala, M. Galli-Kienle, M. Anastasia, and G. Galli

311 Studies on the Partial Degradation of Polyunsaturated Fatty Acids in Rat-Liver Mitochondria
W.-H. Kunau and F. Bartnik

357 Inhibition of Pinocytosis by Cytochalasin B. Decrease in Intracellular Lysosomal Enzyme Activities and Increased Storage of Glycosaminoglycans
K. von Figura and H. Kresse

365 Energy Dissipation by Calcium Recycling and the Efficiency of Calcium Transport in Rat Liver Mitochondria
J. W. Stucki and E. A. Ineichen

407 Effect of Imipramine on the Behavior of Rat-Liver Mitochondria during Centrifugation in a Sucrose Gradient
S. Wattiaux-De Coninck, F. Dubois, and R. Wattiaux

503 Differences between the Estradiol and Testosterone Receptors in Rat Uterus
H. Rochefort and F. Lignon

579 Studies on the Metabolic Effects Induced in the Rat by a High-Fat Diet. Control of Glucose Metabolism in Adipose Tissue of Fed and Fasted Rats
N. M. Zaragoza-Hermans

583 The Interaction of Apoprotein from Porcine High-Density Lipoprotein with Dimyristoyl Phosphatidylcholine
H. Hauser, R. Henry, R. B. Leslie, and J. M. Stubbs

595 The Interaction of Apoprotein from Porcine High-Density Lipoprotein with Dimyristoyl Phosphatidylcholine. Electron Spin Resonance and Fluorescent Probe Studies
M. D. Barratt, R. A. Badley, R. B. Leslie, C. G. Morgan, and G. K. Radda

603 The Participation of the Anabolic Glutamate Dehydrogenase in the Nitrogen Catabolite Repression of Arginase in *Saccharomyces cerevisiae*
E. Dubois, M. Grenson, and J.-M. Wiame

Natural Products

11 O-Acetylation and Glucosylation of Lipopolysaccharide in Hybrids between *Salmonella* Groups B and C_2
U. Rudén and P. H. Mäkelä

319 Chemical Studies on *Shigella sonnei* Lipid A
C. Ługowski and E. Romanowska

Immunochemistry

81 Biological Properties of Lipid A from *Shigella sonnei*
C. Ługowski and E. Romanowska

193 Studies on Lysostaphin. Serological Cross-Reactions between Three Isolated Enzymes
A. Grov, O.-J. Iversen, and C. Endresen
